Such price shall be based on sound actuarial principles, and shall, to the extent actuarially possible, reasonably approximate one percent (1%) of the weighted average tuition for the academic year, plus the costs of administering the educational services plan and any amount necessary to ensure the plan remains actuarially sound. The sales period to which such price applies shall consist of twelve (12) months, and the board shall establish the date on which the sales period begins. The board may impose and collect additional administrative fees and charges in connection with the sale of tuition units.
